MASKING TAPES

Performance Automotive Masking tape 90 °C PRO CAR 0220 ...	5
Automotive Masking tape 80 ° 022	5
Masking tape 60 °C 023	6
Masking tape 02135	6
Masking tape "PERFECT EDGE OUTDOOR" 026	7
Masking tape "PERFECT EDGE" 028	7
Masking tape "DELICATE" 027	8
Masking tape "CURVED SURFACES" 029	8
PVC masking tape yellow, embossed 0243350	9
PVC masking tape orange 0253350	9

PROTECTIVE FILMS

Extra strong protective film 09455	10
Protective film 094	10
Pre-taped film 099	11

MULTI-PURPOSE CLOTH TAPES

Heavy duty duct tape 0520	12
Duct tape 0510	12
Gaffer cloth tape premium 0530	13
FLUO Gaffer tape premium 0540	13

MULTI-PURPOSE DOUBLE-SIDED TAPES

Double-sided cloth tape "Carpet tape" 03215	14
Multi-purpose double-sided tape 03111	14

WATERPROOF TAPES AND BATHROOM TAPES

PVC duct tape extra strong 05164	15
PVC duct tape 05156	15
Bathroom tape 05538, 05560	16

ALUMINIUM TAPES

Aluminium tape 074501, 074502, 074503	17
High-temperature aluminium tape 074504	17
Reinforced aluminium tape 074505, 074506	18
Aluminium tape 074102, 074252	18

DRYWALL JOINT TAPES

Drywall joint tape fiberglass mesh 07755	19
--	----

INSULATION TAPES

PVC insulating tape premium 01210, 01310	20
PVC insulating tape flame retardant 01251, 01351	20
PVC insulating tape 01150, 01250, 01260, 01350	21
Wire harness cotton tape 0153015	21
PET fleece tape 0171519	22
Textile insulating tape 0181925	22
Self-fusing tape 0161019	23

PACKAGING TAPES

PVC packaging premium tape 0777245	24
PVC packaging tape 077717	24
Packaging premium tape silent 045	25
Packaging tape, solvent 041	25
Packaging tape, hot-melt 042	26
Paper packaging tape 044	26
PVC colour packaging tape 0777	27

FILAMENT PACKAGING TAPES

Filament tape cross-weaved 048	28
Filament tape mono-directional 047	28

DOUBLE-SIDED TAPES

Double-sided PE foam mounting tape 03081, 03082	29
Double-sided PE foam tape 03011	30
Double-sided polyethylene foam tape 03010	30
Double-sided acrylic foam tape 0732, 0733, 0734, 0735	31
Double-sided PET tape 03540, 03528, 03522	31
Double-sided PET tape 180°C 03541	32
Double-sided PET tape "Repositionable" 03520	32
Double-sided tissue tape 180 °C 033501	33
Double-sided tissue tape 120 °C 03338	33
Double-sided OPP tape 031038	34
Double-sided PVC tape 03607	34
Butyl tape 0390	35

SPECIAL TAPES

Polyimide tape 06200	35
Polyester masking tape 06231	36
Anti-slip tape 069	36
Repair tape 065	37
Warning tape 066, 067	38

ABOUT BRAND

Established in 2005, Folsen provides industrial manufacturers, professional craftsmen and everyday consumers with premium quality tapes and films recognized for their outstanding performance.

TAPES FOR ANY JOB

We believe that having the right tools for the job makes all the difference. That is why we want to make sure you get the tools that fit your needs exactly! Our team will help you to find the best solution for your business needs and deliver everything right to your doorstep. We can also create individualized tapes in case none of our current product meets your specific requirements.

PARTNERS ALL ACROSS EUROPE

Over the years, we have developed successful partnerships with numerous manufacturers, retail stores and craftsmen businesses of all types and sizes all across Europe. We have earned the approval of countless professional craftsmen, who use our products on a daily basis. Our products are widely used in manufacturing, printing, automotive sector, construction, retail as well as many other industries.

Performance

AUTOMOTIVE MASKING TAPE 90 °C PRO CAR 0220

AVAILABLE SIZES:

- 18mm x 50m
- 24mm x 50m
- 36mm x 50m
- 48mm x 50m

COLOURS:

Crepe paper masking tape with high performance, specific for automotive sector during collision repairs and painting processes with drying cycles at high temperatures up to 110 °C (for 30 min). It combines controlled unwinding, easy tear and conformability. Well performing in overlapping the tape, with masking paper and masking film, it provides excellent paint edges, clean and safe removal without residues and breaking.

- Temperature resistance 90 °C – 60 min, 110 °C – 30 min
- High performance
- Suitable for all kinds of paints
- No residue
- Removal without breaking

Automotive

MASKING TAPE 80 °C 022

AVAILABLE SIZES:

- 12mm x 50m
- 19mm x 50m
- 25mm x 50m
- 30mm x 50m
- 38mm x 50m
- 50mm x 50m

COLOURS:

Automotive masking tape with natural rubber adhesive. Suitable for any kind of painting application in automotive, building, repairing etc.

- Temperature resistance 80 °C – 60 min
- Automotive painting
- Building & Construction
- No residue
- Removal without breaking
- Suitable both for solvent and water based paint

Masking Tape

60 °C 023

AVAILABLE SIZES:

- 19mm x 50m
- 25mm x 50m
- 30mm x 50m
- 38mm x 50m
- 50mm x 50m

COLOURS:

High quality masking tape with natural rubber based adhesive. Suitable for all types of painting applications and most types of paint.

- Temperature resistance 60 °C – 60 min
- Building & Construction
- Suitable both for solvent and water based paint

- No residue
- Removal without breaking

Masking Tape

02135

AVAILABLE SIZES:

- 19mm x 35m
- 25mm x 35m
- 38mm x 35m
- 50mm x 35m

COLOURS:

Practical and reliable general-purpose masking tape with natural rubber adhesive.

- General home use
- Simple painting jobs
- Temperature resistance 40 °C – 60 min

Masking Tape

“PERFECT EDGE OUTDOOR” 026

AVAILABLE SIZES:

- 30mm x 25m
- 50mm x 25m

COLOURS:

Premium masking tape designed for the most accurate paintwork where you need to get a perfectly straight edge. Suitable for almost any surface. With extra UV and water resistance.

- Removable without residue up to 90 days
- UV-resistant for 90 days
- Temperature resistance: 120 °C – 60min
- Suitable for all types of paints

Masking Tape

“PERFECT EDGE” 028

AVAILABLE SIZES:

- 25mm x 25m
- 38mm x 25m

COLOURS:

Premium masking tape designed for the most accurate paintwork where you need to get a perfectly straight edge. Suitable for almost any surface.

- Removable without residue up to 60 days
- UV-resistant for 60 days
- Temperature resistance: 120 °C – 60min
- Suitable for all types of paints

Masking Tape

“DELICATE” 027

AVAILABLE SIZES:

- 30mm x 25m
- 50mm x 25m

COLOURS:

This masking tape is suitable for use on freshly painted and other delicate surfaces.

- Removable without residue up to 5 days

Masking Tape

“CURVED SURFACES” 029

AVAILABLE SIZES:

- 38mm x 25m

COLOURS:

Masking tape with highly creped paper. Specially designed for masking curved surfaces.

- Ideal for painting objects of irregular shape and work with curved lines on smooth and uneven surfaces

PVC Masking Tape

YELLOW EMBOSSED 0243350

AVAILABLE SIZES:

- 50mm x 33m

COLOURS:

This masking tape is based on embossed vinyl backing, coated on one side with an aggressive rubber adhesive.

- Easy tearing
- Comfortable and pliable backing

- Can be used for covering during painting and plastering works, also for repairing, marking, protection and maintenance

PVC Masking Tape

ORANGE 0253350

AVAILABLE SIZES:

- 50mm x 33m

COLOURS:

This masking tape is based on special release-treated soft PVC film coated on one side with an aggressive rubber adhesive.

- Comfortable and pliable backing
- Can be used for covering during painting works, also for repairing, marking, protection and maintenance

Extra strong PROTECTIVE FILM 09455

AVAILABLE SIZES:

- 4m x 5m (20m²)

COLOURS:

Highly durable protective film for protection of various surfaces.

- Highly durable
- Protects from solvents
- Protection of large surfaces
- Electrostatic
- For covering various surfaces during construction and repair works

Protective film 094

AVAILABLE SIZES:

- 4m x 5m (20m²)
- 4m x 12,5m (50m²)

COLOURS:

Protective film for protection of various surfaces.

- Water-resistant
- Protects from solvents
- Protection of large surfaces
- Electrostatic
- For covering surfaces and furniture

Professional bonding solutions

Pre-taped film

099

AVAILABLE SIZES:

- 550mm x 33m
- 1100mm x 33m
- 1400mm x 33m
- 1800mm x 33m
- 2700mm x 17m

COLOURS:

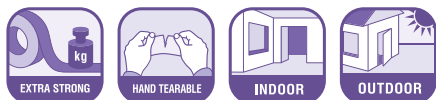

Protective film with high quality self-adhesive masking tape. Perfect for protection of different surfaces.

- Two-in-one: protective film + self-adhesive masking tape
- Electrostatic; the film takes the form of the protected surfaces
- Embossing on the film prevent the paint from spreading
- For quick and easy solutions in protecting
- small and large surfaces in one go
- Quickly and easily removable

Heavy duty

DUCT TAPE 0520

AVAILABLE SIZES:

- 48mm x 50m

COLOURS:

Premium duct tape with natural rubber adhesive. Perfectly suitable for many kinds of repair and packaging applications. High tensile strength and adhesion make this product a perfect choice for various heavy duty industrial applications.

- Extra strong
- Excellent adhesion
- Removal without breaking
- Easy to use

Duct tape

0510

AVAILABLE SIZES:

- 48mm x 10m
- 48mm x 25m
- 48mm x 50m

COLOURS:

High quality duct tape with strong synthetic rubber adhesive. Designed for various repair applications in DIY and industry. Special temperature resistance (from -10 °C up to 60 °C, once applied).

- High tensile strength
- High adhesion
- Removal without breaking
- Easy to use

Gaffer

CLOTH TAPE PREMIUM 0530

AVAILABLE SIZES:

- 48mm x 50m

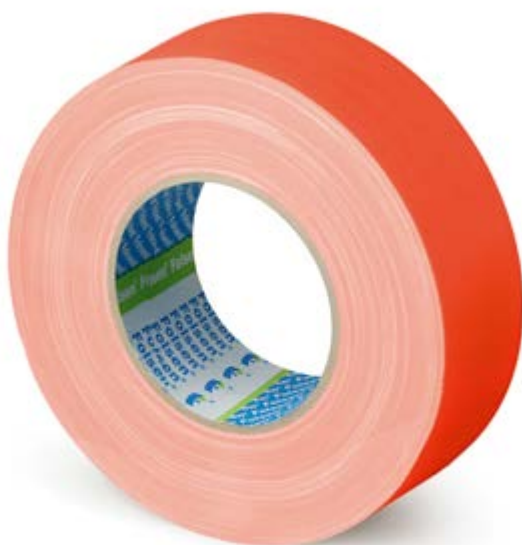

COLOURS:

300 micron professional premium grade cloth tape specially designed for heavy duty application where residue free removal is required. Perfectly suitable for arts and entertainment industry.

- Non-reflective
- Conformable
- Easy to remove

FLUO Gaffer

TAPE PREMIUM 0540

AVAILABLE SIZES:

- 25mm x 50m
- 48mm x 50m

COLOURS:

Professional premium grade fluorescent cloth tape specially designed for heavy duty application where residue free removal is required. Perfectly suitable for arts and entertainment industry.

- Fluorescent
- Conformable
- Easy to remove

Double-sided cloth

CARPET TAPE 03215

AVAILABLE SIZES:

- 50mm x 5m
- 50mm x 10m
- 50mm x 25m

COLOURS:

Double-sided cloth tape with adhesive on the basis of synthetic rubber. Due to its durability and flexibility, the tape is perfect for fixing carpets. The tape is also widely used for a variety of industrial and household purposes.

- Due to its durability and flexibility, the tape is perfect for fixing carpets
- The tape is also widely used for a variety of industrial and household purposes
- Transparent, reinforced with fiberglass

Multi-purpose

DOUBLE-SIDED TAPE 03111

AVAILABLE SIZES:

- 50mm x 5m
- 50mm x 10m
- 50mm x 25m

COLOURS:

Transparent Polypropylene film is coated with high tack acrylic adhesive on both sides. 03111 can be used for splicing, mounting and joining purposes.

- Ideal for industrial and household use

PVC duct tape

EXTRA STRONG 05164

AVAILABLE SIZES:

- 48mm x 30m

COLOURS:

Water-proof PVC tape with adhesive on the basis of natural rubber.

- Highly durable
- Moisture-resistant
- Ideal for wrapping air pipes, waterproofing during plumbing works, etc.

PVC duct tape

05156

AVAILABLE SIZES:

- 48mm x 30m

COLOURS:

Water-proof PVC tape with adhesive on the basis of natural rubber.

- Damp-resistant
- Ideal for wrapping air pipes, waterproofing during plumbing works, etc.

Bathroom tape

05538, 05560**AVAILABLE SIZES:**

- 38mm x 3,35m
- 60mm x 3,35m

COLOURS:

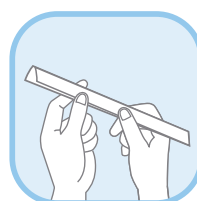

Self-adhesive butyl based border tape used for sealing junctures in premises with high level of dampness. The product is pre-shaped for easy application.

- Used for filling small fissures in bathroom, for instance, fissures between appliances and the floor or between appliances and walls.

APPLICATION GUIDELINES:

1. The surfaces on which the tape is applied must be free of water, grease, dust and dirt.

2. Measure the required length and cut the tape.

3. Carefully apply the tape while removing the protective film. Press firmly during application.

4. For complete adhesion 6 hours without dampness are required.

Professional bonding solutions

Aluminium tape

074501, 074502, 074503

AVAILABLE SIZES:

- 50mm x 50m
- 75mm x 50m
- 100mm x 50m

COLOURS:

High tensile strength aluminium foil backing, combined with a cold weather acrylic adhesive, protected by an easy-release silicone release paper.

- Service temperature range: -35 °C - +120 °C
- Provides excellent reflection of both heat and light
- Excellent sealing and patching performance

- Used for taping joints and seams for protection against dampness and steam, for various insulation purposes, for repair works in automotive industry

High-temperature

ALUMINIUM TAPE 074504

AVAILABLE SIZES:

- 50mm x 50m

COLOURS:

High tensile strength aluminium foil backing, combined with a flame retardant cold weather acrylic adhesive, protected by an easy-release silicone release paper. Resistant to high temperatures - up to +150 °C.

- Temperature resistance: up to +150 °C
- Provides excellent reflection of both heat and light
- Excellent sealing and patching performance

- Used for taping joints and seams for protection against dampness and steam, for various insulation purposes, for repair works in automotive industry

Reinforced

ALUMINIUM TAPE 074505, 074506

AVAILABLE SIZES:

- 50mm x 40m
- 75mm x 40m

COLOURS:

Foil-Scrim backing, combined with a transparent high performance cold weather solvent acrylic adhesive, protected by an easy-release silicone release paper. Used in HVAC industry for joining and sealing Foil-Scrim Facing laminated fiber-glass blanket / duct board / pipe section joints and seams; joining and sealing flexible air duct seams and connections.

- Excellent reflection of both heat and light
- Super strong adhesion and holding power

- Perfectly suitable for HVAC industry application
- Low moisture vapor transmission rate

Aluminium tape

074102, 074252

AVAILABLE SIZES:

- 50mm x 10m
- 50mm x 25m

COLOURS:

General purpose aluminium tape with high tensile strength aluminum foil backing, combined with a cold weather acrylic adhesive, protected by an easy-release silicone release paper.

- Excellent reflection of both heat and light
- Good aging resistance both indoors and outdoors
- Low moisture vapor transmission rate

Drywall joint tape

FIBERGLASS MESH 07755

AVAILABLE SIZES:

- 48mm x 20m
- 48mm x 180m
- 48mm x 45m
- 100mm x 20m
- 48mm x 90m
- 150mm x 20m

COLOURS:

Self-adhesive high quality fiberglass tapes are used on gypsum plasterboard joints, as well as on cracks before applying filler.

- The tape together with filler reinforces joints and cracks

PVC insulating tape

PREMIUM 01210, 01310

AVAILABLE SIZES:

- 19mm x 20m
- 19mm x 33m

COLOURS:

PVC film insulating tape has strong and durable qualities, can be stretched without tearing. Rubber adhesive has good aging characteristics. For use as electrical insulation, bundling, coding identification and marking on joints and splices in wires, pipe and cable.

- Protection against voltages up to 7000 V
- Suitable for use from -18 to 105 °C
- Conforms to UL, CSA standards

PVC insulating tape

FLAME RETARDANT 01251, 01351

AVAILABLE SIZES:

- 19mm x 20m
- 19mm x 33m

COLOURS:

This tape is based on a 0.10 mm soft PVC film, coated with an aggressive rubber- resin adhesive with flame retardancy and good aging characteristics. Excellent conformability and high elongation at break.

- Protection against voltages up to 5000 V
- Suitable for use from 0 to 80 °C
- Conforms to IEC 60454-3-1-5/F-PVCP/90 Type 5 standards

PVC insulating tape

01150, 01250, 01260, 01350

AVAILABLE SIZES:

- 15mm x 10m
- 19mm x 20m
- 19mm x 33m
- 25mm x 20m

COLOURS:

General purpose insulating tapes. Tapes consist of soft PVC backing and natural rubber adhesive.

- Protection against voltages up to 5000 V
- Is suitable for use in temperatures from 0 to 80 °C

- For electrical insulation at junctures, binding and grouping of wires and cables
- Conforms to RoHs standards

Wire harness

COTTON TAPE 0153015

AVAILABLE SIZES:

- 19mm x 15m

COLOURS:

Self-adhesive cloth insulation tape is perfect for automobile wires and other insulation works.

- Does not contain lead or cadmium
- Low level of noise during unwinding
- Resistance to adverse weather conditions

- Long duration of service
- High tensile strength
- Dielectric Breakdown (1 min) - 1 kWh

PET fleece tape

0171519

AVAILABLE SIZES:

- 19mm x 15m

COLOURS:

Textile insulating tape designed specifically for demanding applications in motor vehicles and gear compartments. In addition, due to softness of the carrier tape is perfect for banding wires to reduce noise and vibration.

- Heat Resistance: +150 °C

Textile INSULATING TAPE 0181925

AVAILABLE SIZES:

- 19mm x 25m

COLOURS:

Self-adhesive cloth insulation tape is perfect for automobile wires and other insulation works.

- Heat aging test: 125 °C/3000h no crackle, no fading, no looseness.
- Low-temperature performance test: No crazing and crackle after 4 hours in -40 °C
- Abrasion resistance: D grade (2580m)
- Flame retardant: B grade flame retardant (10s extinct away from fire)

Self-fusing tape

0161019

AVAILABLE SIZES:

- 19mm x 10m

COLOURS:

Very flexible insulating tape made of special PIB rubber. The tape has excellent electrical and physical properties, which allow it to “sinter” fast into homogeneous mass without the influence of heat. Good for protecting hoses, plastic and metal tubes as well as other automobile, industrial and household appliances against corrosion.

- No adhesive layer
- Very resistant to long-term water impact
- Perfect for complex surfaces

- For joining, binding and repairing cables
- No special tools required for application
- Dielectric power (kWt/mm) 19-22

PVC packaging

PREMIUM TAPE 0777245

AVAILABLE SIZES:

- 48mm x 66m

COLOURS:

Premium quality carton sealing PVC tape, suitable for manual dispenser application. Can be used for automated applications. Ultra White colour due to a special film treatment.

- Excellent adhesion even in recycled cartons
- Long lasting adhesion
- Excellent tack

- Once applied, ideal for storage in extreme temperature conditions and high moisture environments

PVC packaging

TAPE 077717

AVAILABLE SIZES:

- 48mm x 66m

COLOURS:

High quality carton sealing PVC tape, suitable for manual dispenser application. Can be used for automated applications.

- Excellent adhesion even in recycled cartons
- Excellent tack
- Long lasting adhesion

- Once applied, ideal for storage in extreme temperature conditions and high moisture environments

Packaging tape

PREMIUM, SILENT 045

SILENT

SOLVENT FREE

AVAILABLE SIZES:

- 50mm x 66m

COLOURS:

Premium BOPP packaging tape with acrylic based adhesive. Super silent unwinding. Specially designed for medium and heavy duty carton sealing.

- Silent unwinding
- "Ecological" solvent-free tape

- Extra strong backing
- High Performance

Packaging tape

SOLVENT 041

AVAILABLE SIZES:

- 38mm x 66m
- 48mm x 66m
- 75mm x 66m
- 48mm x 990m

COLOURS:

Self-adhesive tape with BOPP backing and natural rubber adhesive base. The tape is suitable for use with manual dispenser and automated packaging lines. The adhesion and elasticity characteristics, together with the brilliance and transparency, typical of polypropylene tapes, make it ideal for all applications in the packaging sector. Due to its adhesive qualities, the tape can be used at low temperatures.

- Service Temperature: -25 °C - +65 °C
- Excellent and long lasting adhesion

Packaging tape

HOT-MELT 042

AVAILABLE SIZES:

- 48mm x 66m
- 75mm x 66m
- 48mm x 990m

COLOURS:

Self-adhesive tape with BOPP backing and synthetic rubber adhesive base. The tape is suitable for use with manual dispenser and automated packaging lines. The adhesion and elasticity characteristics, together with the brilliance and transparency, typical of polypropylene tapes, make it ideal for all applications in the packaging sector.

- Excellent adhesion
- High tack

Paper PACKAGING TAPE 044

AVAILABLE SIZES:

- 50mm x 50m

COLOURS:

Paper tape, specially designed for box and cardboard packaging.

- High slip resistance
- Easy to use and unwind

PVC colour

PACKAGING TAPE 0777

AVAILABLE SIZES:

- 9mm x 66m
- 12mm x 66m

COLOURS:

PVC packaging tape with natural rubber adhesive. Due to its qualities, the tape is perfect for sealing both standard boxes and boxes made of recycled material.

- Excellent and long lasting adhesion
- Service Temperature: -25 °C - +65 °C
- Easy unwind

Filament tape

CROSS-WEAVED 048

AVAILABLE SIZES:

- 50 mm x 50 m

COLOURS:

Self-adhesive tape with BOPP backing coupled with cross-weaved glass fibres. Special hot-melt glue makes the tape perfect for gluing to cardboard boxes. The tape is used for packaging heavy boxes, gluing tubes, pallets and for other works where high durability against breaking is required.

- Excellent adhesion to all surfaces
- Excellent tack
- High tensile strength

Filament tape

MONO-DIRECTIONAL 047

AVAILABLE SIZES:

- 12mm x 50m
- 19mm x 50m
- 25mm x 50m
- 38mm x 50m
- 50mm x 50m

COLOURS:

Self-adhesive tape with BOPP backing coupled with glass fibres positioned longitudinally. Special hot-melt glue makes the tape perfect for gluing to cardboard boxes. The tape is used for packaging heavy boxes, gluing tubes, pallets and for other works where high durability against breaking is required.

- high tensile
- 3 layers

Double-sided

PE FOAM MOUNTING TAPE
03081, 03082

AVAILABLE SIZES:

- 19mm x 1,5m
- 19mm x 5m
- 9mm x 25m
- 12mm x 25m
- 19mm x 25m
- 25mm x 25m

COLOURS:

Tape consists of black and white PE foam 1.1 mm thick, coated with modified acrylic adhesive on both sides, with blue protective liner. The tape ensures high adhesion, resistance to movement and is adapted to different weather conditions.

- Specially designed for fixing mouldings, profiles, signs, etc.

Double-sided

PE FOAM TAPE 03011

AVAILABLE SIZES:

- 9mm x 25m
- 12mm x 25m

COLOURS:

Cross-Linked Polyethylene (PE) foam is coated with high tack acrylic adhesive on both sides. Widely used in automotive industry and for home decor.

- For furniture, mirrors, functional trim and decorative panels etc.
- Can be used with most materials

Double-sided

POLYETHYLENE FOAM TAPE 03010

AVAILABLE SIZES:

- 6mm x 25m
- 9mm x 25m
- 12mm x 25m
- 19mm x 25m
- 25mm x 25m

COLOURS:

Tape of PE foam with modified acrylic adhesive. The tape has high adhesion, durability and resistance to ageing. It is used for fixing car moldings, badgings, mirrors, etc.

- For mounting advertising plaques, displays and hangers
- Can be used with most materials

Double-sided

ACRYLIC FOAM TAPE
0732, 0733, 0734, 0735

AVAILABLE SIZES:

- 
- 6mm x 33m
 - 9mm x 33m
 - 12mm x 33m
 - 19mm x 33m

COLOURS:

Double-sided tape of foamed acrylic backing. Perfect for mounting various advertising materials, signs and transparent materials. Available thickness - 0,5mm; 1mm; 1,5mm.

- High resistance to movement pressures
- Can be used with most materials

Double-sided

PET TAPE
03540, 03528, 03522

AVAILABLE SIZES:

- 
- | | |
|--------------|--------------|
| • 6mm x 50m | • 19mm x 50m |
| • 9mm x 50m | • 19mm x 5m |
| • 12mm x 50m | • 25mm x 50m |

COLOURS:

Double Sided High Temperature Polyester Tape has excellent bonding and very aggressive adhesion, and provides reliable sticking effect even though under rigorous outside force and temperature.

- Excellent adhesion and good resistance to temperature and ageing
- Perfect for industrial use as well as household use

Double-sided

PET TAPE 180°C 03541

AVAILABLE SIZES:

- 6mm x 50m
- 12mm x 50m

COLOURS:

High temperature PET double sided tape has excellent bonding and very aggressive adhesion, and provides reliable sticking effect even though under rigorous outside force and temperature. Suitable for different kinds of nameplates and film switches mounting and fixing. For dimensional stability and improved handling with ease of die cutting and laminating.

- Good UV resistance
- Good plasticizer resistance
- Good solvent resistance
- Perfect for industrial use as well as household use
- Excellent adhesion and good resistance to temperature and ageing

Double-sided

PET TAPE "REPOSITIONABLE" 03520

AVAILABLE SIZES:

- 6mm x 66m
- 12mm x 66m

COLOURS:

PET double sided tape, which allows permanent fixing to one surface and a removable (peelable) surface on the reverse side, permanent adhesive on the open (exposed) side and peelable adhesive on the liner side. It has very good electrical insulation and temperature resistance. Widely used on window displays, posters and notice boards, where repeat/ temporary fixation is required.

Double-sided

TISSUE TAPE 180 °C 033501

AVAILABLE SIZES:

- | | |
|--------------|--------------|
| • 4mm x 50m | • 19mm x 50m |
| • 6mm x 50m | • 25mm x 50m |
| • 9mm x 50m | • 38mm x 50m |
| • 12mm x 50m | • 50mm x 50m |

COLOURS:

Double-sided tissue tape has excellent adhesion, good holding power and resistance to high temperatures. The tape is applicable for general industrial use, such as fixing metal and plastic plates; it is often used in household for gluing parts of electric appliances.

- Temperature resistance: +180 °C ≥ 3 min

Double-sided

TISSUE TAPE 120 °C 03338

AVAILABLE SIZES:

- | | |
|--------------|---------------|
| • 4mm x 50m | • 25mm x 50m |
| • 6mm x 50m | • 30mm x 50m |
| • 9mm x 50m | • 38mm x 50m |
| • 12mm x 50m | • 50mm x 50m |
| • 15mm x 50m | • 50mm x 100m |
| • 19mm x 50m | • 100mm x 50m |

COLOURS:

Paper double-sided tissue tape 03338 – high-quality tape with excellent adhesion, high temperature resistance and movement resistance. Perfect for general industrial uses, such as repairing metal and plastic details, foam lamination, making shoes, clothes and other leather products.

- Temperature resistance: +120 °C ≥ 3 min

Double-sided OPP TAPE 031038

AVAILABLE SIZES:

- 
- 6mm x 50m
 - 9mm x 50m
 - 12mm x 50m
 - 25mm x 50m

COLOURS:

Double-sided adhesive tape of polypropylene available with adhesive based on natural rubber meant for general use. It is very useful for gluing different types of paper.

Double-sided PVC TAPE 03607

AVAILABLE SIZES:

- 
- 6mm x 50m
 - 9mm x 50m
 - 12mm x 50m
 - 25mm x 50m

COLOURS:

Double-sided tape with backing based on polyvinylchloride and modified acrylic glue.

- Has high initial and final adhesion
- Suitable for most materials
- Used both indoors and outdoors

Butyl tape

0390**AVAILABLE SIZES:**

- 3mm x 0.6mm x 30m

COLOURS:

Butyl tape mainly used by inside primary compositions of insulation glass production. This product achieved DIN EN 1279 part 2 and 3. Other applications: automotive industry; container - building; shipbuilding; refrigeration; air conditioning; housetop, - window, - wall covering substrate; arboriumbuilding; construction of apparatus; PV - industry.

- Solvent - free
- Pressure - sensitive
- Constancy malleable
- One-component butyl – sealing tape basically of polyisobutylene
- No aging

Polyimide tape

06200

AVAILABLE SIZES:

- | | |
|--------------|--------------|
| • 6mm x 33m | • 25mm x 33m |
| • 9mm x 33m | • 30mm x 33m |
| • 12mm x 33m | • 38mm x 33m |
| • 19mm x 33m | • 50mm x 33m |

COLOURS:

Polyimide tape covered with silicon-based glue. Excellent preservation of physical and electric qualities at high temperatures. For use in high performance electrical applications on high-temperature coil, such as in traction machine manufacturing, in the production of generators, capacitors, transformers etc. May also be used for masking off gold contacts on PC board during wave soldering process and during hot air levelling or for splicing other high temperature insulation materials.

- Flame retardant
- Conforms to UL standards
- The tape is used as Class 200 / Class C insulation material

Polyester

MASKING TAPE 06231

AVAILABLE SIZES:

- | |
|--------------|
| • 19mm x 66m |
| • 25mm x 66m |
| • 30mm x 66m |
| • 38mm x 66m |
| • 50mm x 66m |

COLOURS:

Polyester tape with high temperature resistant silicone adhesive. High temperature resistance makes it perfectly suitable for high demanding applications such as masking during powder coating.

- High temperature resistance
- Easy to apply

Anti-slip tape

069

AVAILABLE SIZES:

- 25mm x 5m
- 50mm x 5m
- 50mm x 10m

COLOURS:

Folsen anti-slip tape has durable uneven surface that will keep you in balance. The tape can be used both indoors and outdoors, and can be glued quickly and easily to any clean, dry, degreased surface, including wood, metal and cement – just remove protective paper and glue the tape, pressing it to the surface.

- Resistant to UV rays
- Resistant to dampness and precipitation
- Resistant to temperature fluctuations

Repair tape

065

AVAILABLE SIZES:

- 50mm x 10m
- 50mm x 33m
- 75mm x 10m

COLOURS:

Durable tape with polyethylene backing and acrylic-based adhesive. Due to its durability and UV-resistance, the tape is perfect for outdoor repairs of glass and film.

- Weather resistant
- Ideal for splicing and reparation of greenhouses

Warning tape

066, 067

AVAILABLE SIZES:

- 50mm x 33m

COLOURS:

PVC tape with natural rubber adhesive. Used for marking and identification of stairs / passages and for decoration.

- Excellent adhesion
- Highly stretchable
- Resistant to ageing
